## **SHORT SUMMARY**

Stewart Ferguson Ph.D. is Director of the Alaska Federal Health Care Access Network (AFHCAN) in Anchorage, Alaska with deployments throughout Alaska, the United States, and multiple other countries. Dr. Ferguson has been with AFHCAN since its inception in 1998 and had key roles in product/software development, assessment, evaluation and research. Dr. Ferguson has over twenty years of progressive computer and research experience in academic, industrial, biomedical and business environments. He has been involved in software development for CT scanners, theoretical solutions for the forward and inverse problems in biomagnetism, and imaging techniques for cardiac activity. He is a founding member and past-Chairman of the Board for the Northwest Regional Telehealth Resource Center providing support to telehealth systems in 8 states and the Pacific Islands. He currently serves on the Board of the American Telemedicine Association. He holds M.S. and Ph.D. degrees both in Biomedical Engineering, and B.S. degrees in both Mathematics and Electrical Engineering.
